Saturdays – 10:30am	Sundays – 10:30am
September 3—Meet the Menagerie: Come meet the critters that live at the Nature Center and learn why these animals are not able to return to the wild. ***This program will be a presentation.***	**September 4—Plants with Purpose:** Come walk with a naturalist through the nature center's garden. Learn plant identification and adaptations. ***This program will be a small walk.***
September 10—Sensational Senses: How do humans and animals explore and get information from their environment? Discover the functions of your senses and compare your sensory abilities to local wildlife. Use your senses to investigate animal artifacts and even a live animal!  ***This program will be a presentation.***	**September 11—Sun Seekers:** Some have scaly skin, some have slimy skin, some have legs, and some don't. Can you guess what they are? Join us and meet one of these cold-blooded critters up close! ***This program will be a presentation.***
September 17—Birding for Families: Bring the family out for birding and nature walk led by a naturalist. Birdwatchers of all levels welcomed. Make sure to bring your binoculars, or we can loan you a pair! ***This program will be a hike.***	**September 18—Sea Otter Awareness Week!:** Join us in celebrating otters by highlighting our own local species, river otters! Learn about these secretive and playful creatures, how they are alike and different than their ocean cousins, and their vital role in the freshwater ecosystem. More sea otter awareness week info at www.seaotterweek.org. ***This program will be a presentation.***
September 24—National Public Lands Day!: Celebrate something we all share: our public lands! Get the satisfaction that comes with preserving and protecting your favorite public lands by joining us for a trail and river clean-up. Families and individuals welcome! Be a part of the nation's largest, single day volunteer effort for public lands! ***This program will be a hike & trail / river clean-up.***	**September 25—Under the Oaks:** Our mighty oaks provide food and shelter for many animals and insects. Learn how to identify the three species of oak trees found in the Nature Preserve and discover who may be living in them. ***This program will be a hike.***
